This is in regards to my favorite radio station, Air 1 - I am requesting that my station be allowed to stay on the air and available to me at its current frequency. With all of the trashy music available to the world, it's rare that a Christian based organization such as Air 1, is available. The radio station has lifted my spirits through song, by reminding of God's word, and by praying for me whenever I request. This is a station that I allow my family to listen to, I encourage my friends and co-workers to listen to as well. This is my piece of sanity in the drive home, my joy to listen to while I clean....there are so many disgusting stations out there that I would prefer you get rid of. Air 1 plays wholesome music with a jammin beat, there aren't many Christian based radio stations like this at all. Please keep Air 1 alive and don't take away my tiny bit of goodness on the air. By spreading their message of love and hope, shouldn't we be trying to spread Air1

rather than shut them down?
